

# Project Manager (Scotland)

energetics

Design | Build | Connect

## Internal Only

We have a fantastic opportunity for a Project Manager to join our North Operations Team. This individual will be responsible for the delivery of utility construction projects in Scotland from award through to project closure.

### The Role:

- Responsible for full compliance within the planning and submission of NRSWA Noticing to ensure Multi Utility Supervisors are compliant with live notices.
- Work with Operations Manager to forecast resource requirements and ensure sufficient resources are available to deliver the project.
- Responsible for, and take lead for health, safety, and work quality on each project to ensure that safe working practices are always maintained.
- Be responsible for delivery of the project financials, including margin and cash flow, and work closely with the QS to ensure appropriate commercial resolution of variations (VO) and disputes

### What we are looking for

- HNC in an engineering discipline or similar appropriate and equivalent qualification or at least 5 years' experience holding a similar position
- Health & Safety qualification including Site Safety training etc
- Excellent organisational planning and time management skills
- Logical thinking with creative problem-solving ability
- Attention to detail.
- Commercial acuity and demonstrable project, financial and contract management skills
- Excellent communication, team working and customer service skills
- Working knowledge of CDM Regulations

If you think you have everything we're looking for, then we'd love to hear from you!

Please send your up to date CV to [HR@energetics-uk.com](mailto:HR@energetics-uk.com)

Better be quick though! Applications close on Monday 23<sup>rd</sup> August 2021
